Appropriate use of controlled substances in the research laboratory is the responsibility of the Principal Investigator/Researcher. I verify that all University, State, and Federal regulations will be followed when my researchers or I are using, storing, and disposing of all controlled substances in my laboratory.

By signing below, I authorize inquiries of courts and law enforcement agencies for possible pending charges or convictions. I understand that any false information, omission of information, or misuse of controlled substances will jeopardize my position with the University. Information included herein will not preclude me from utilizing controlled substances in research at California State University Fullerton, but will be considered as part of the evaluation of qualifications in the application.

The Department of Justice, Drug Enforcement Agency (DEA) requires that an employee who has knowledge of drug diversion from his/her employer by a fellow employee has an obligation to report such information to a responsible security official of the employer. At California State University Fullerton all such reports can be made confidentially to the Environmental Health & Safety Controlled Substance Program Coordinator who will inform the California State University Fullerton Police to initiate an investigation on the allegations. The protection of an individual’s right to privacy will be upheld in all confidential inquiries.

I have reviewed the California State University Fullerton’s Controlled Substances Policies and procedures and agree to abide by them:
